

MOST WRECKS ARE CAUSED BY THE INFERIOR RAILS MADE BY STEEL TRUST

E. H. Harriman Hurls Down His Gauntlet to the Gigantic Corporation and Demands Better Rails in the Future

AMERICAN RAIL ROAD ASSOCIATION ACTS

And Appoints a Committee of Railroad Men to Fight the Matter Out With the Trust—Harriman Subject of Presidential Conference at the White House.

New York, June 5.—E. H. Harriman, in the role of a defender of the people, hurling his gauntlet down before the giant steel trust, is the picture unveiled today following the virtual ultimatum of the American Railway association of the United States Steel corporation demanding better and more reliable rails.

It developed today that the association composed of the executive heads and operating officials of the great railway system of the country, and representing 230,000 miles of railway, has appointed a special committee to deal with the steel corporation in an effort to procure better rails, the great number of wrecks of the last year having been proven beyond a doubt to be attributable chiefly to inferior rails.

It is said that the source of the trouble was generally recognized for a long time, but that none of the railroads dare antagonize the powerful steel trust. Then came Harriman to the front.

"The lives of the passengers on the Southern Pacific are more than a necessity for dividends on steel stocks." This is the notable sentiment attributed to the "little giant," but whether he voiced it or not, it is certain that he took the bull by the horns by switching an order for 150,000 tons of rails to the Tennessee Coal and Iron company, virtually the only independent plant in the country, and by so doing, proclaimed his independence to the steel trust.

Charles M. Schwab, former head of the steel trust, is quoted today as frankly admitting that the rails turned out today are poor in quality and dangerous. He says that the bessemer process now in use must be supplanted by the open hearth system, and that a higher price rail must be manufactured, the rails which were formerly satisfactory being no longer adequate to the demands made upon them by the heavier traffic conditions. The price of rails in Europe today is virtually the same as in this country, and railroad men say that no relief could be obtained by purchasing abroad. The sole course open lies in the rectification of the steel trust's method of manufacturing and in the substitution of better material. Realizing this the railroads have banded together to force the trust to turn out some dependable rails. The committee appointed to fight the matter out with the trust is made up as follows:

L. Peck, general manager Pennsylvania lines west of Pittsburgh; chairman; J. T. Richards, chief engineer maintenance of way, Pennsylvania railroad; J. Krut Schnitt, vice president Southern Pacific company; W. J. Wilgus, vice president New York Central and Hudson River R. R.; R. Montford, consulting engineer L. & N. R. R.; C. Carter, chief engineer Chicago & Northwestern Railway; Wm. Garstang, superintendent motive power, Cleveland, Cincinnati, Chicago & St. Louis Railway; R. L. Ettinger, consulting mechanical engineer, Southern Railroad, and W. E. Fowler, master car builder, Canadian Pacific Railway.

HARRIMAN SUBJECT OF CONFERENCE AT WHITE HOUSE

Washington, June 5.—The question as to whether the government will enter criminal prosecution against E. H. Harriman for the violation of the Sherman anti-trust law was considered at a conference between President Roosevelt and Franklin K. Lane, in-

terstate commerce commissioner, at the White House.

Mr. Lane was with the president for more than an hour and upon leaving the White House announced that before July 1 legal proceedings would be instituted to compel Mr. Harriman to answer certain questions propounded to him by members of the commission in the recent hearing in New York when the Alton deal was under investigation.

Previous to his conference with the president, Commissioner Lane had conferred with Frank B. Kellogg, special counsel for the government in the Harriman investigation. Mr. Kellogg, it is understood, will have a conference with the president some time this week and will later go to New York to institute suit against Mr. Harriman to compel him to answer the questions regarding the Alton transaction. At this conference all the members of the commission will be present and it will then be decided what action the administration is to take in regard to the criminal prosecution of Mr. Harriman. While no date has been set for this conference it probably will be held on Thursday or Saturday of this week.

Commissioner Lane declined to discuss what took place at the conference. All that he would admit was that the matter was "referred to" while he was discussing the general railroad situation with the president.

Prisoners Escape.
New York, June 5.—Saving their way through the steel bars of their cells in Castle William, three prisoners escaped from Governor's Island and have not been captured. A boat is missing from the island and the men carried the steel window bars with them as weapons. The escaped prisoners are Henry C. Tomer, R. C. Campbell and Frank West. They were serving two and one-half year terms respectively for theft, sleeping on post and desertion, and were confined in the same cell on the top tier in Castle William. The men used a rope ladder which was used to escape.

RICHARD CROKER AND WIFE ON EVE OF RECONCILIATION.

NEW YORK, June 5.—Friends of Richard Croker and Mrs. Croker discussed with much interest the cable reports from London that the two are about to be reconciled after separation of many years. According to the cables, Mrs. Croker has directed the manager of the hostelry to reserve apartments for her husband, who, she said, is to arrive there on Saturday night from his estate in Ireland.

CHIEF FIGURE IN TRIAL AT BOISE IDAHO

D. HAYWOOD IN HIS CELL.

U.S. AMBASSADOR AND MARK TWAIN ARE HONORED

London, June 5.—Whitelaw Reid, the United States ambassador to Great Britain, Mark Twain and Rudyard Kipling are among the distinguished men on whom honorary degrees will be conferred by Oxford University on June 26. The list this year is exceptionally long in honor of the installation of Lord Curzon into the chancellorship. Prince Arthur of Connaught, Prime Minister Sir Henry Campbell-Bannerman, Admiral Lord Beresford and August E. Rodin, president of the International Society of Fine Arts are among the other notable men to be honored with degrees.

PENNSYLVANIA WILL INDORSE SENATOR KNOX

Harrisburg, June 5.—United States Senator Knox will be formally indorsed for president and pledged the support of the Pennsylvania delegation to the next Republican national convention by the Republican state convention which will be held in this city on Thursday for the nomination of a candidate for state treasurer. Senator Knox's interests are in charge of Congressman James Francis Burke, who came here from Pittsburgh and opened headquarters. Senator Penrose is in hearty accord with the movement.

Two detectives were killed and two soldiers and three other persons wounded on the streets at Lodz, Poland, by a bomb thrown at the police officials by terrorists.

STEPMOTHER IS NOW HIS WIFE

Dayton, June 5.—Determined that his divorced stepmother should not lose a home or the family name, John H. Nehrik, aged 30, procured a marriage license yesterday to marry Mrs. Pearl Nehrik, aged 22, the divorced wife of his father, Edward Nehrik, aged 56.

NEWARK'S LIVE ONES

The Advocate presents to the notice of its readers today Mr. Joseph L. Worth, the general ticket agent for the Pennsylvania lines at this point. Mr. Worth came here from Idlewood, Pa., near Pittsburgh, in 1891, and at once became an active worker in anything that was offered that would help the business interests of our growing city. He was one of the prime movers in developing the Heisey addition which with the famous factory as a centre, all of it, is an improvement to the city that reflects great credit on Mr. Worth's abilities as a hustler.

Fraternal and socially Mr. Worth

JOSEPH L. WORTH.

is right in it. He is a Mason, Odd Fellow, and K. of P. As a Mason he is a Knight Templar, and the Eminent Commander of St. Luke's Commandery No. 34.

Mr. Worth also belongs to the Masonic club, and takes great interest in the club's affairs, is a devotee to the dog, gun and rod, and is a "Live One" from all standpoints.

AN EARLY TRIAL FOR MOTORMAN

Elyria, O., June 5.—Preparations are being made today for the early trial of Motorman Funderer, charged with manslaughter in connection with the Memorial dayrolley wreck which caused such a loss of life. A true bill was voted by the grand jury late yesterday.

Judge Washburn, who was a passenger on the wrecked car, and who summoned the special grand jury, will preside in the case. It will call in some other judge.

Funderer is now out on \$5,000 bail. He will probably be called in to court today and his bond raised. The indictment for manslaughter is based on the allegation that he was running his car at an illegal speed when he ran into the car ahead.

Dr. Young J. Allen, a missionary of the Methodist church in China, is dead. He was 72 years of age.

WRIGHT BROTHERS ARE IN EUROPE ON PLEASURE TRIP

Paris, June 5.—Wilbur Wright and his brother of Dayton, O., airship inventors, insist they are in Europe merely on a pleasure trip, but there have been so many reports of late that they are preparing to sell their invention to some foreign power that the trip to Berlin necessarily is regarded as important. Every nation of Europe is watching its rivals. As the Wrights are supposed to have really solved the problem of aerial navigation, they attract attention every place they go.

NO ADMISSION TO CONFEDERATES TO THE CAPITOL

Washington, June 5.—One hundred armed Confederate veterans from Tennessee, carrying the stars and bars, were denied admission to the United States capitol, until after they had lowered their flag and disarmed. The old soldiers came to Washington from the Richmond region, and after visiting the White House marched down Pennsylvania avenue to the capitol. The capitol police informed them that they would be allowed admission to the capitol only as private citizens and not as an organized body. Congressman John Wesley Gaines of Tennessee, who accompanied the veterans, entered protest.

FIVE WITNESSES

Were Examined By the Senate Committee on the Brownsville Affray.

Washington, June 5.—Five witnesses were heard by the senate committee on military affairs when the investigation of the Brownsville affray was resumed after a week's recess. General E. A. Gardington, inspector general of the army, testified concerning his failure to get any positive evidence of the guilt of the negro soldiers and of the investigation of other officers, which caused him to hold to the belief that the negroes did the shooting, but had agreed to protect each other by remaining silent. Ignacio Garza, who lived across the alley from the Cowan house, which was riddled with bullets, said he heard the shots fired and afterwards heard men running back through the alley toward the garrison.

JURY COMPLETED TO TRY SCHMITZ

San Francisco, June 5.—The jury was completed for the trial of Mayor Eugene Schmitz on the first of the five indictments returned against him by the grand jury. He is accused jointly with Abraham Ruef of having extorted from Joseph Malfanti \$1,175 as the first instalment of a \$5,000 annual bribe to secure to the French restaurant keepers of San Francisco their licenses to sell liquor.

A dog exhibiting symptoms of hydrophobia went on a rampage at Columbus, O., and while being chased by a number of citizens bit nine children before it was killed.

THE COMMISSION ARRIVES TO VIEW HOSPITAL SITE

GOVERNOR HARRIS WAS AMONG THE PARTY OF DISTINGUISHED GUESTS.

VISITED THE CAMP GROUNDS

Committee of the Board of Trade Meet the Members at the Depot With Carriages.

Governor A. L. Harris and Auditor of State W. D. Guilbert, representing the commission to select a site for the state hospital for crippled children, arrived in Newark at 2 o'clock Wednesday afternoon. They were met by Pres. W. L. Prout and other officers of the Board of Trade, together with a delegation of other prominent citizens, and escorted to

GOVERNOR HARRIS.

the State Encampment ground, west of Newark—the site which Newark offers for the proposed hospital.

The reception committee visited the B. & O. station expecting the governor and state auditor there but they came via the Interurban and were at the Warden when the com-

WALTER D. GUILBERT.

mitteemen arrived. After an informal reception, the party drove in five cabs to the ground, which was thoroughly inspected. Governor Harris and Auditor Guilbert were pleased with the proposition offered by Newark and were delighted with the appearance of the ground and its excellent condition.

No better site could be found. It

HARRY ORCHARD TOOK THE STAND AT BOISE, IDAHO

TO TELL THE STORY OF THE MURDER OF FORMER GOVERNOR STUENENBERG.

ORCHARD IS UNDER GUARD

Tells His Right Name and Mentions Crimes of the Western Federation of Miners.

Boise, Idaho, June 5.—Harry Orchard, the self-confessed murderer, went on the stand today in the Haywood trial to tell the story of murder of Governor Stuenenberg and other crimes of which the prosecution charges against Haywood and the other officials of the Western Federation of Miners on trial. Orchard was under a heavy guard, and looked neither to the left nor the right, focusing his eyes on Hawley who conducted the examination. The testimony against the defendants was secured through a constant fire of objections from Richardson and Darrow, which the court overruled in nearly all cases. Orchard said his right name was Albert E. Worsley, and he was a Canadian. He joined the union in 1899. Orchard told of the meeting where he testified the union decided to blow up the Bunker Hill Sullivan mine, and hang the superintendent. Orchard said a train was seized and the wires cut, in spite of the opposition of the president of the union. The train at the Frisco mill magazine took on 140 boxes of giant powder. Union men rode on the train and compelled the crew to run it.

Orchard told of the blowing up of the Bunker Hill mine and killing two men. He said he went to Denver union headquarters, and Haywood gave him \$300. Since that time he had devoted his time to blowing up property and killing men. He says Haywood asked him to kill some soldiers. Orchard then told of his return to the mining regions. He swore he was promised \$500 to blow up the Vindicator mine and arranged a plan whereby the superintendent and shift boss were killed. A recess was taken before he got to details of the Stuenenberg murder.

Boise, Idaho, June 5.—Harry Orchard, the self-confessed murderer of Governor Stuenenberg, who will go on the stand to give testimony in the case against William Haywood, was brought into Boise from the Idaho penitentiary. For some hours he was closeted with the attorneys for the prosecution. This is the first time that Orchard has been out of the penitentiary since he was brought from Caldwell, immediately after the assassination of the former governor. On his trip into the city he was accompanied by Warden Whitney. Notwithstanding the report of possible violence to Orchard on the part of friends of Haywood, the prisoner was surrounded with but little precaution during his drive into the city.

The opening statement of Attorney James Hawley, for the state, against William Haywood was a severe arraignment of the leaders of the West.

BOSOM OF THE DYING GIRL POUNDED TO CAST OUT DEVILS

Cleveland, O., June 5.—The coroner's office yesterday began an investigation into the death of Maud Wright, 16-year-old daughter of Mrs. Lydia Durnell, 929 Fruit avenue.

The girl died of pneumonia without medical attendance or medicine, the girl and her family believing in the efficacy of prayer, it is asserted.

During Monday afternoon the patient was attended by Rev. Charles F. Kelchner, pastor of the Christian Assembly church, an offshoot of Davidism, and by a Mrs. Wilson, or Wilton, whom the coroner is anxious to find.

Dr. F. W. Hackin, who was called in Monday night after the girl's death, and who refused to give a death certificate to Mrs. Durnell, tells this story:

"I was first called to the Durnell house Saturday. Mrs. Durnell said: 'You know, doctor, we do not believe in medicine. We believe in prayer.'"

"I asked her why she had called me if she did not believe in medicine, and she replied that she thought I might be able to make her daughter more comfortable."

"I examined the girl. She had pneumonia. I told the mother that her daughter was very sick. She persisted that she did not believe in

medicine. So I left the house without leaving medicine or prescription."

"Then Rev. Kelchner called me Monday night. He told me he had come from the Durnell house and he did not know whether the girl was dead or not."

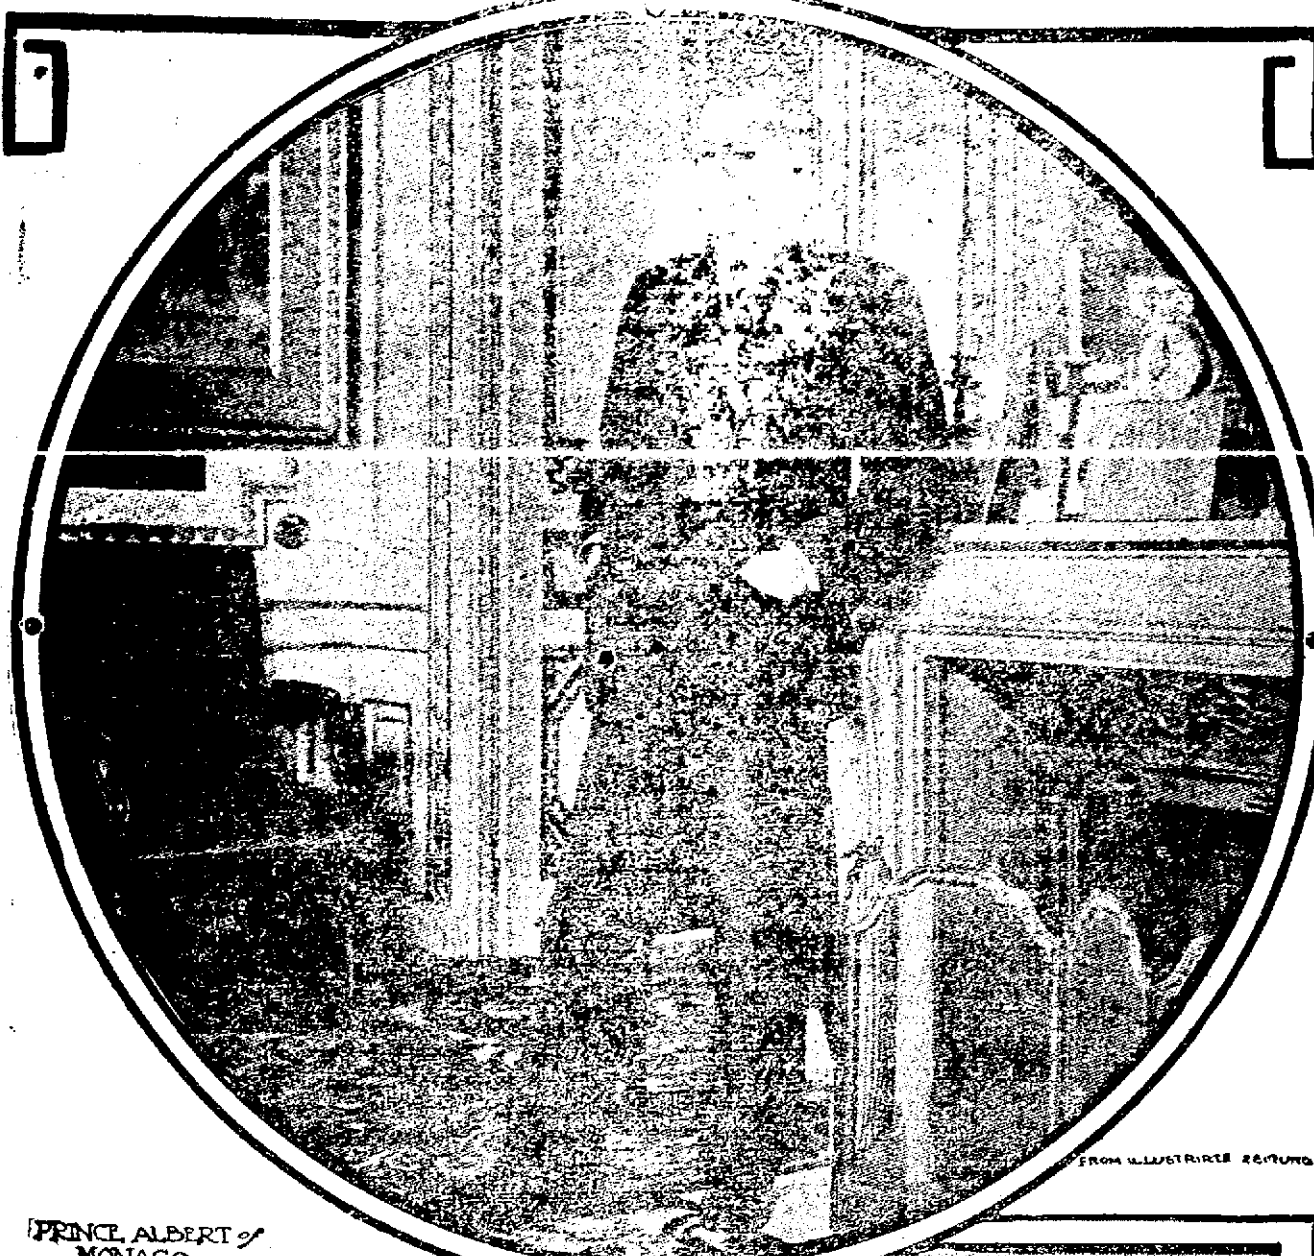

"I went with him to the house and found the girl dead."

"Mrs. Durnell told me that that Rev. Kelchner and a woman had been with the girl in the afternoon. The woman, she said, had taken the girl from the bed to a chair by an open window, and had struck the girl, already dying, in the breast several times, between blows making motions with her hands toward the open window, this motion being supposed to cast out the devils which afflicted the patient."

"The mother wanted to know if I thought such treatment detrimental to a sick person's condition. I replied that striking a dying person in the breast couldn't be anything but detrimental."

"My daughter had no medicine," said Mrs. Durnell. "She did not wish it. A year ago she has an attack similar to this one and prayer cured her. I, too, have been cured by prayer. The last thing Maud said was: 'I hear heavenly music playing. How sweet it is! Jesus is calling me.'"

MONARCHS UNITE TO HONOR PRINCE OF MONACO.

PRINCE ALBERT OF MONACO

BOY WRITES TO PROBATE JUDGE

About His Experience in the Industrial School at Lancaster, Telling His Impressions.

Probate Judge Brister has received the following letter from Elmer White, the 14-year-old boy who was recently committed to the Boys' Industrial School at Lancaster, and shows how he is impressed with the institution

Lancaster, O., June 3.

Judge Brister, Newark, Ohio:

Dear Friend—It is with a great deal of pleasure that I write you. I am in the best family on the farm. We have nice beds to sleep in. The play-grounds are large and spacious, and we have a fine room where we can read and study. I am trying to do right and as yet have not had my name taken up for talking. All the boys here are fine fellows, and we are given shower baths ever Saturday afternoon. Mr. and Mrs. Grove are our matrons, and they are very good to me. The name of our family is "Lagonda," meaning, clear water. We had an entertainment last Wednesday night, in honor of Decoration Day. Mrs. Grove and the "Lagonda" boys are very thankful for your sayings, which are written on the front board. The eighteenth of this month is my birthday, when I will be 14 years old. There are thirteen families on the farm. Brother Grove is trying to get me into the telegraph office. I am in the sixth grade here and go to school in the afternoon. We have soldier drills every Sunday and Wednesday. Everything is lighted with electricity. On the night of Decoration Day, a gentleman from Columbus visited us and made us a speech in the chapel, and he explained the meaning of Decoration Day. Our first nine played the Herick first nine on Decoration Day. The score was 14 to 9 in favor of the Lagonda nine. There are so many boys here that we have three basket ball nines. Tell the doctor's wife I haven't forgotten them. Give her my address, and tell her I expect a letter from her soon.

With regards to all, I will close for this time. God be with you all.

Harsh physics treat, weaken the bowels, cause chronic constipation. Doan's Regulents operate easily, tone the stomach, cure constipation. 25c. Ask your druggist for them.

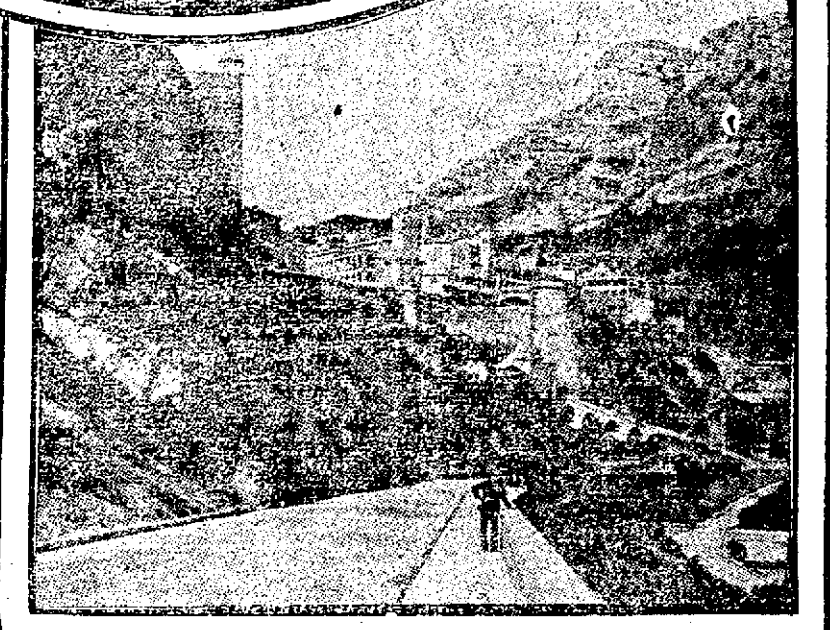

"PRISONERS' CRY"

"Rang Up To Heaven, God Heard and With His Thunder Cleft the Earth."

Mr. Evan R. Evans, state president of the Union Ex-Prisoners of W. V., has just returned home from the South, having gone with Mr. H. A. Fleming and others to participate in the Decoration Day exercises at Andersonville, Ga. Mr. Evans brought to the Advocate a bottle of water from Providence spring.

Mr. Evans was a prisoner for 11 months at Andersonville, and the 31,000 men confined there were obliged to drink the water from a filthy

MONACO: THE PRINCE'S PALACE

Paris, June 3.—To recognize the Prince of Monaco's services to the science of oceanography, a statue of the Prince is to be erected in the vestibule of the Oceanographic Institute, founded by him at Monte Carlo. Quite a syndicate of sovereigns has been formed to provide funds, so the statue will be a tribute by crowned heads to the scientific achievements of one of their number. This idea originated with the Prince's son and

stream which passed through the Confederate camp. One night in the summer of 1864, a heavy storm broke loose and on the following day a splendid spring of pure water appeared. This spring was hailed with joy and today an inscription reading as follows may be seen on a tablet at Providence spring:

"The prisoners' cry of thirst rang up to Heaven. God heard and with His thunder cleft the earth and poured his sweetest waters gushing here."

Thirteen thousand Union soldiers are buried at Andersonville and Mr. Evans with his friends assisted in placing flags upon their graves May 30. It was his first visit to Andersonville since he was a prisoner there 41 years ago. Mr. Evans speaks well of the kind treatment he and his friends received during their recent trip.

Receiver For Abyssinian Road.

Paris, June 3.—The Abyssinian railroad, being made to pay dividends, has applied for liquidation and M. Klobukowsky, a Frenchman, has been appointed receiver to conduct the negotiations for carrying out the construction of the extension of the line to Addis Ababa, the capital of Abyssinia. The Abyssinian railroad runs from the port of Djibouti, French Somaliland, to Dire Dawa, about 40 miles from Harar, in southeast Abyssinia, a distance of about 186 miles.

THORNVILLE.

Wm. J. Long is on the jury in New Lexington court this week.

Dr. N. L. Stevens was a business visitor in Newark Monday.

Mr. and Mrs. Frank Brocius and Mr. and Mrs. Edward Lawyer were in Newark Monday.

Mrs. Charles Plank of Columbus is the guest of friends here this week.

Max Hindrock and wife of Glenford were in the village on business on Saturday.

Simpson Orr of Newark is working with A. L. Brocius on the Paulsen barn.

Harry Paulson is on the sick list this week.

James and Virgil Loring were in Newark Monday.

The Logan Gas Co. will drill their first well on the John Traver farm west of town this week.

The Ohio Fuel Co. will drill on the

was immediately taken up by Emperor William, an intimate friend of the ruler of Monaco. Emperor Francis Joseph, the Tsar and the kings of England, Italy, Portugal and Sweden were among the first to join in the subscription in which no one below the rank of prince may participate. The statue will represent the prince in naval uniform leaning against the railing on the bridge of the yacht Princess Alice, which he uses in deep sea dredging expeditions.

Samuel Alsapach farm soon.

The home of Rev. Mr. Griffith is almost completed.

The citizens of Thornville are contemplating the forming of a board of trade the purpose of which is to boom the town.

Rev. Mr. Runkle filled the pulpit in the Reformed church on Sunday morning.

Dr. E. Z. Alsapach of Akron is the guest of his parents.

The Boxwell commencement will be held in Franks grove, June 14.

Mr. and Mrs. George Wilmer were guests of their daughter, Mrs. Dr. Rarick of Glenford the past week.

Begin Right

For all forms of nervous diseases take Dr. Miles' Nerve, whether it be simple nervousness, or those nerve destroying fits and convulsions. It is a tonic for weak nerves—It will restore nervous energy, and give strength to the entire system.

"In 1895 my little daughter was stricken with paralysis of the brain. For seven long weeks she lay like one dead. At times she would rally, and spasms would follow. I had the service of two of our best doctors and they could do nothing for her. At times it would take two persons to hold her in bed, and for seven days and nights we had to keep her little head packed in ice, the pain she suffered was so severe. Mr. Fredico, the druggist advised Dr. Miles' Nerve. I got a bottle and began giving a teaspoonful every two hours. After about ten days she began to quiet down, and within two weeks' time she could sit up in bed, and rapidly improved from that time. We have given her about twenty-five bottles of Nerve along with the Nerve and Liver Pills, and to-day she is well and healthy as ever. My wife and I were completely worn out; staying up nights with our little one during her sickness, so we began taking the Nerve ourselves, and with the very best of results.

EMANUEL BODEY, Payne, Ohio.

Dr. Miles' Nerve is sold by your druggist, who will guarantee that the first bottle will benefit. If it fails, he will refund your money.

Miles Medical Co., Elkhart, Ind

A REMEDY FOR ECONOMIC ILLS

Colonel Bryan Would Apply the Jeffersonian Maxim.

SPECIAL PRIVILEGES TO NONE

Nebraskan Defines His Attitude Relative to the Licensing of Trusts. Would Not Look With Favor Upon Third Term For Any Occupant of the Presidential Office.

Baltimore, June 3.—"The Jefferson maxim—equal rights to all and special privileges to none—embodies the governmental principle whose application is most needed at this time," said William Jennings Bryan, who is in this city. He continued: "The abuses of which the people complain arise from the violation of this principle. Both Jefferson and Jackson pointed out the evils of favoritism and privilege, and those evils are especially noticeable at this time when great corporations have secured such influence in politics. The trust, tariff, and railroad questions all illustrate the overshadowing influence of corporate wealth. Favoritism in government operates always in the interest of the few and against the masses. The remedy lies in the withdrawal of the privileges in so far as the evil rests upon privilege, and a restraint on corporations in so far as the corporations have overstepped the law."

Referring to his attitude relative to the licensing of so-called trusts Mr. Bryan said: "It has been criticised by some who spend more time objecting to remedies than they do proposing remedies, but the license system which I advocate was indorsed in the Kansas City platform seven years ago. We have a few Democrats whose sympathies are with the trusts and some Democrats are always alarmed when a remedy is proposed. If the remedy is proposed by a state, such Democrats are afraid that it interferes with the federal government, and if it is proposed by the federal government, they are afraid it interferes with the state. The people will not take their Democracy from the employees of the trusts, who earn their salaries by chloroforming the public while the pockets of the people are being picked." Relative to a third term for any occupant of the presidential office, the speaker said: "When in congress I endeavored to secure an amendment to constitution making the president ineligible for a second term and in both of my campaigns I also announced that if I were elected, I would not be a candidate for a second term. I would hardly look favorably, therefore, upon a third term."

A Canadian's Experience With Municipal Telephones Abroad.

On his return from Europe recently Rodolphe Forget, a member of the Canadian parliament, was asked by a representative of the Montreal Star to give his opinion of municipal ownership in the European cities he had visited. His reply was:

"It is awful. The telephone system is an illustration. A friend of mine called me up from Brussels while I was in Paris. That is about the same as calling up a man in Ottawa, speaking from Montreal. He left a call for me for 6:30 p. m. I went to the phone, and they said that he had just left. It was only a matter of a few minutes. They charged me 15 francs for having been called up. I did not speak to my man, and when he arrived in Paris later on I learned that he, too, had been charged 15 francs. I wonder if they would stand this sort of thing on this side of the water. I do not think so.

"It takes about twenty-five minutes to get a connection, so that if you are within a ten or fifteen minutes' drive it is better to jump in a cab and go and see your man personally. That is no joke."

Private Supply Lessens Cost.

The municipal electric light plant of Grand Rapids, Mich., which has been in operation since 1890, has been held up as an example of successful municipal operation. It was therefore a great surprise when in a detailed report to the board of public works Samuel A. Freshney, the general manager of the plant, advised that the generating plant be shut down and that current be purchased from a private company, as the city would save thereby 30 per cent of the generating cost, amounting to more than \$6,000 per annum. The board of public works promptly adopted Mr. Freshney's report and recommended to the city council that a contract with a private company be entered into. The council is, however, holding the matter in abeyance until the company secures a franchise.

Plant Worn Out in Greenfield, Ind.

The committee appointed by the city council to investigate the condition of the municipal light plant reports that the engines, machinery and equipment are worn out; that the capacity of the plant is inadequate. The city wishes to erect a new \$40,000 plant, but cannot secure the money by the sale of bonds because of having already reached the debt limit. The city council proposes to ask for bids upon the part of manufacturers of electric light machinery to install a plant, the city making an advance payment and permitting the plant to work out its own indebtedness.—Electrical World.

HOME FOR ARMY MULES.

Move to Place Veterans in Service on Uncle Sam's Pension Roll.

A movement to pension the army mule and furnish him a home when his days of usefulness are over has been started and if it receives the cooperation of humane societies a bill will be passed by the next congress prohibiting the sale of the obstinate "critters" owned by the government, says a Washington special to the Chicago Record-Herald. Under present laws the army mule, along with all other government property, must be condemned when useless and be sold to the highest bidder. Patriotic societies which have been organized to look after the welfare of veterans have been asked to join in the movement to provide at government expense quarters and feed for horses and mules which have served faithfully with Uncle Sam's army so as to save them from inhumane treatment.

W. H. Lowder of Miles camp, Spanish War Veterans, who is taking a leading part in the agitation in behalf of the friendless mule, at a meeting of his camp in Washington the other night said:

"It is a pitiable sight to see our old army horses and mules, after having seen service in foreign countries, sold to unscrupulous horse dealers. Every one of these noble animals is branded with the United States army service mark, and it is a disgrace that they should be hitched up to scavenger wagons, ash and brick carts.

"I have seen horses sold that have seen years of honorable service, and every soldier must feel the injustice of the treatment they are receiving, especially in a country like ours, where there are thousands of acres of land lying idle in Virginia, Texas and western forts. Why couldn't these animals be allowed to spend the rest of their days at these places on the pension roll of Uncle Sam instead of being sold for the paltry sum of \$15?"

Officials of the war department who have command of the army rules raise no objection to the suggestion and say that if permitted by law it could be easily arranged to find a comfortable home for the wornout army mules.

WORLD COUNCIL OF PROGRESS

Movement From Northern Europe Intended to Bring Nations Closer.

Word has been brought from Denmark of a movement, to become worldwide, which is taking form through the organization of an association called the Vikings, says the New York Times. The first national council already formed in Copenhagen is composed of some of the most representative and best informed men in the Danish capital. Its chief present object is fair and free discussion of great questions intimately affecting the northern nations of Europe, such, for instance, as the proposed closing of the Baltic by Germany and the publication to the world of the results of such discussions.

Ultimately it is planned that associations of Vikings will be established in every country, national councils being planted on the greatest centers—New York in the United States, London in England, Buenos Ayres in Argentina, etc.—and subordinate councils in smaller centers. When this has been accomplished, the discussion of the Vikings will take wider scope.

As wrought out down to the present plan of the Vikings as a world organization includes a central council of a dozen or a score to be established in London and to be re-enforced by representatives from each nation. Each national council is to be chartered by this central council, which is also to charter such subordinate councils as may be recommended by the national councils. The first steps in the formation of the central council have already been taken, as they have also for the establishment of national councils in France, Germany, Austria, India, Italy and Canada.

A co-ordinate organization, the Vikings' Daughters, is included in the plan. The movement has already been brought to the attention of a number of distinguished men and women in New York city, and it may soon take definite form in a national council of the United States.

Eyelashes to Order.

"Please send me another dozen eyelashes."

This is a sample of numerous orders being received by an ingenious British inventor who has created a demand among women beauty seekers for false lashes to replace nature's eye fringes with which the owners are dissatisfied, says a London cable dispatch to the Chicago Tribune. The patentee claims that hundreds of women are eagerly buying eyelashes, especially those who spend much time in automobilizing. They visit him to be fitted in the first instance, but after their preliminary fixture the lashes keep in good shape for a month. They may then need a little attention, such as curling with warm tongs and receiving a touch of a special fluid.

Lunching on the Curb.

Luncheon served in carriages lined up along the curbstone is the latest fad introduced in Philadelphia. This innovation was witnessed when a carriage containing a man and a woman fashionably dressed was stopped in front of a Chestnut street restaurant. The coachman got down from his seat and hastened into the restaurant, and in a short time a waiter appeared on the sidewalk with a trayful of edibles. The food was handed into the carriage, and the occupants fell to eating in full view of passersby. The idea promises to become popular among shoppers, who, as a rule, find the public dining rooms crowded just about the time they want their luncheon, says the Philadelphia Record.

Successful Baking A Talk with Housewives

If you want to have light, tempting, appetizing biscuits, waffles, griddle cakes, doughnuts—delicate and delicious cakes, and all the other good things in which baking powder is used, try Egg Baking Powder.

Egg Baking Powder insures successful baking. Your quick steps in the haste of preparation or the accidental slamming of the oven door will not result in fallen cake or heavy biscuits.

Egg Baking Powder is made from dried white of egg and wheat phosphates. When water is added, the resulting leavening gas is caught and held in tiny globules by the egg albumen, and it can't get away until your baking has progressed far beyond the danger line where ordinary baking powder "goes dead."

These are facts which a trial will prove. Another thing that's mighty

important is that Egg Baking Powder has no cream of tartar, tartaric acid, alum or other harmful substances found in ordinary baking powders, that keep the digestive organs in a constant state of irritation and cause Dyspepsia. We will give \$5,000 to anyone who can prove that this is not absolutely true.

Bad baking powder causes many a kitchen tragedy. Think of company coming for dinner and the baking fallen flat! Biscuits like bricksbats! Cake ruined! Muffins wearing a soggy look! Only a lot of uninviting and indigestible cookery to show for a whole day's work and worry. No danger of this if you use "Egg."

You save one-third the eggs and all the worry when you use sweet, pure, wholesome and nourishing Egg Baking Powder. Best grocers sell it. Write us for the Egg Cook Book—it's FREE.

THIS AND THAT
A middle-aged Irishman, a native of the "Old Sod," and who was rather seedy looking, recently stopped one of our young prominent Irish-Americans and said:
"Hould on, Denny, do yez know that every t'ime Oi look at you that ye remind me of me ould friend, the great Irish orator, Daniel O'Connell, whom Oi knew well in the ould country? Now have ye the price of a drink about ye?"
The young man explained that as he had his working clothes on he had no change with him, and never carried any money when returning from work.
Then the native from the Emerald Isle got back.
"All right, but on a second gool look at ye, you look loik mud to me."
Certain prophets predict that it will be safe to take them off some time between now and the Fourth of July.

THREE WERE KILLED WHEN CAR BLEW UP
Beddick, Ill., June 3.—By an explosion of a car loaded with gasoline, three men were instantly killed and ten persons seriously injured. The dead: Fred Hatting, a barber, of Reddick; John Frazer, Danville, Ill.; Austin Stockton, Danville, Ill.
All the victims of the explosion were watching three freight cars burn that had become ignited from a hot box on one of the tracks. Right next to these cars was another car loaded with gasoline, which caught fire. A fearful explosion followed which broke all the windows in the village and demolished chimneys of houses for miles around. The three men killed, who were standing close to the gasoline car, were blown to atoms and the fragments of their bodies scattered for a hundred yards around.

Air Motor Explodes.
Wilkesbarre, Pa., June 3.—The bursting of an air motor at No. 14 colliery of the Pennsylvania Coal company at Port Blanchard, killed two men, fatally injured two others and caused minor injuries to eight more. The dead: Joseph N. Munley, driver boss, Plains; Richard McCawley, motor runner, Pittston. Fatally injured: Michael Dillon, miner, Plains; Henry Waters, track layer, Plains. The motor was being charged at one of the air stations when suddenly it blew up. Great damage was done to the interior of the mine.
A tornado struck three miles west of Decatur, Texas. The district covered by the tornado was narrow, but much damage was done to property.

June 5 In History.

1725—Dr. Adam Smith, author of the "Wealth of Nations," born in Scotland; died 1790.
 1820—Karl Maria von Weber, famous musical composer, died; born 1786.
 1892—Oil City and Titusville, Pa., devastated by a fire created with burning oil, 300 lives being lost, 1,500 people rendered homeless and \$2,000,000 in property destroyed.
 1897—Rear Admiral Samuel P. Lee, U. S. N., retired, last of the civil war commanders of great squadrons, died in Washington; born 1812.
 1898—Captain Charles V. Gridley, commander of "Deer" in the battle at Manila, died at sea off Japan.
 1900—Fighting at Taku between American marines and Boxers.

Jail for Corporation Lawbreakers.

Attorney General Bonaparte is of the opinion that violations of law by corporations can be much more effectively checked through the imprisonment of guilty officials than by the imposition of fines. He is undoubtedly right. The fines, as a rule, bear small proportion to the sum of illicit gain resulting from illegal discrimination. They are paid out of gross earnings. The stockholders are the sufferers wherever the amount of the fine exceeds the amount of profit to the corporation.

One important trust magnate safely landed in the penitentiary would act as a more powerful deterrent of future law-breaking on the part of his fellow magnates outside of the penitentiary than would the imposition of any amount of fines. It is, of course, much more important to punish the big rascals who plan and profit by corporate plundering than the little fellows who do as they are told to do by their superiors. But the big fellows are the thing. Harriman in jail would count for more than Roosevelt on the stump.

A few years ago the Republicans in power in Ohio and strongly in the majority in the legislature created the state bureau of accounting to examine public accounts throughout the state, the bureau being a thing proposed and advocated by State Auditor Guilbert. The Republicans have long held to the opinion that only Republicans are competent to hold and administer office, yet they provided for a bureau of accounting in this state to keep office-holders straight by examining accounts and discovering "irregularities" in Republican counties and municipalities and "flagrant violations" of law in Democratic places. And these are

the days when Republicans in office are creating jobs for inspectors to watch things they ought to look after themselves. It looks queer, this thing of claiming that only Republicans are competent to look after public affairs and appointing inspectors and examiners to keep watch of them.

HAYWOOD TRIAL

(Continued from Page 1.)
 ern Federation of Miners. The statement of Mr. Hawley charged a wide spread conspiracy, dating in inception from the north Idaho disturbance 15 years ago, reaching down to the murder of Frank Steunenberg, and whose murdered victims by bullet and bomb numbered scores. Hawley declared that wherever in the mining sections of the coast states the federation had been in control there had been left a trail of blood to mark its operations. Of the alleged assassins, he cried: "To them murder became a trade and as assassination a means of living."

The counsel for the defense opened first before the statement had proceeded ten minutes and the repetition of objections from them led to three or four sharp exchanges. They protested against the charge that the federation was guilty of "scores of murders" and the assertion that the conspiracy extended back to the first trouble in north Idaho, which was years before the accused was a member of the organization, and they accused Mr. Hawley of arguing the case in an opening statement. They dotted the records with exceptions of overruled objections and finally got an agreement whereby they could protect their rights as to the entire opening statement. Judge Wood permitted the wide scope in the opening statement on the assurance of Mr. Hawley that the state could show the existence later of the conspiracy which it charged and make the necessary legal connection.

Eight witnesses were examined. The witnesses were all from Caldwell and those who did not tell of the crime itself were called to locate Harry Orchard, who went to the town as Thomas Hogan at various hotels and around the Steunenberg home, and to show that two months before the crime John L. Simpkins, a member of the executive board of the Western Federation of Miners, had joined Orchard and had lived with him for several days in the same room.

John C. Rice, N. S. Ellis and A. B. Baine, residents of Caldwell, traced Orchard about the town at various times before and after the crime, and then came Julian Steunenberg, son of the dead governor, to tell how Orchard had three days before the murder inquired of him about his father's movements.

The defense briefly cross-examined several witnesses and the line of questions were aimed at making it clear that Harry Orchard had shown himself conspicuously in the streets of Caldwell and that neither he nor Simpkins had sought to conceal their movements. It was believed that this was done to lay the foundation for the counter conspiracy charge that it is thought the defense will bring forward.

Found a Bomb.

New York, June 5.—Accidental discovery of a bomb in the shape of a box filled with dynamite, fulminating powder and in train with a fuse in the home of Joseph Kennell, a police justice of New Durham, N. J., prevented probably the destruction of the house with its dozen inmates. The attempt to kill Mr. Kennell is laid to criminals, of whom he has sent to prison a score or more for theft and blackmail.

Loggers Let Out.

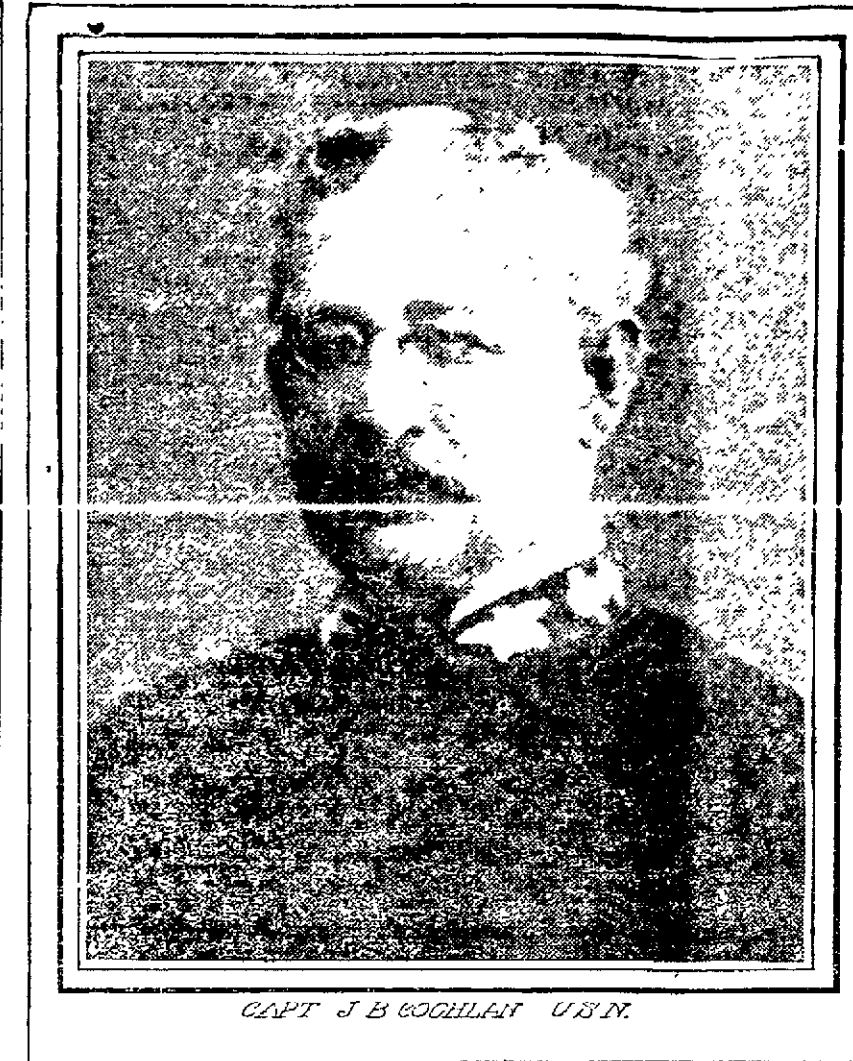

Vancouver, B. C., June 5.—Seventy-nine logging camps will close June 20 for an indefinite period. Over three thousand men, with wages aggregating \$300,000 per month, will be idle. The Loggers' association decided that logs are too cheap and that there are too many on the market.

What the President Meant.

Washington, June 5.—It is authoritatively stated at the White House that the president's remark at Lansing, Mich., last Friday, that in a year and eleven months he hoped to take a more active part in the Harvard Alumni association, did not mean that he expected to hold any office whatever at Harvard in the future. It merely meant, it is stated, that when his term as president is concluded, he would be at liberty to participate more actively in the affairs of the association.

Harry Lane, Democratic and Independent candidate, was re-elected mayor of Portland, Ore., by about 1,500 majority over T. C. Devlin, Republican.

ADMIRAL COGHLAN RETIRES AFTER FORTY-FIVE YEARS SERVICE.

CAPT. J. B. COGHLAN, U.S.N.

New York, June 5.—After 15 years of service, in which he saw active duty in the Civil and Spanish-American wars, Rear Admiral Joseph B. Coghlan, one of the best known officers in the United States navy, has retired. The formal ceremony attending his retirement takes place at the New York navy yard, where he surrenders his command to Rear Admiral C. F. Goodrich. Admiral Coghlan retired officially on reaching the age limit in late December, but was directed to continue as commander of the navy yard.

GRANVILLE RETIRED MINISTER
IS TO MARRY COSHOCTON
COUNTY WOMAN.

F. W. Levering, Former Newark Man,
 Asks For Receiver and Sues For
 Salary—Other Matters.

Coshocton, June 5.—The first June wedding is at hand. The blushing bridegroom is 71 and a retired preacher; the bride is 58. Both have sailed on the sea of matrimony before. The groom, who blushing asked if kept quiet, is now a farmer, having doffed the clerical robes, and resides at Granville. The bride comes from Oxford township. They took out their license Monday afternoon, but the groom admits the wedding will not take place for a week or so yet.

F. W. LEVERING BRINGS SUIT.

Columbus, O., June 5.—Suit will be brought in justice court today by F. W. Levering, former editor of the Wine and Spirit News, and the Eagle Messenger, against the Wine and Spirit News company for back salary, which he says amounts to something over \$200. He will also ask for a receivership for the company, he being one of the stockholders.

Mr. Levering has been editor of the Wine and Spirit News since its foundation, 12 years ago. Before coming to Columbus he lived in Newark. He was informed on Tuesday morning, he says, that he has been discharged.

MR. VERNON DEATH.

Mr. Vernon, O., June 5.—Miss Mary Keys, 55, who died of paralysis, will be buried Thursday afternoon.

COSHOCTON BOTTLE PLANT.

Coshocton, O., June 5.—The Coshocton Glass company in May made over two million bottles.

MR. T. H. SITES ON
THE CONDITIONS
AT SAN FRANCISCO

A letter was received Tuesday from Mr. Thomas H. Sites, and which was written to his wife. Mr. Sites is now in San Francisco, and among other things says that the devastation wrought by the earthquake and the fire was not overrated. The city is in a frightful condition, buildings are still being razed, and as the municipality is too poor to do things right, such as furnishing water and proper inspection, the dust and dirt is all pervading and conditions are most uncomfortable. Most all the authorities having proved themselves dishonest and incompetent, with strikes on among the much needed labor element, the situation is indeed most depressing for the city's future, and in any event it will take years to put it back to the place among cities that it formerly enjoyed.

Railroad travel, too, is unsafe, as the railroads are not in shape to keep up their equipment, and wrecks occur daily. Strenuous measures are

now being taken by the authorities to compel the railroad officials to fix up their road beds to insure greater safety to the traveling public.

Mr. Sites is now enroute to Portland from which point he promises to write a letter for publication in the Advocate.

NEWARK NUMBER
OF OHIO MAGAZINE

The July issue of The Ohio Magazine will be a Newark number with a guaranteed circulation of 20,000 copies. The Ohio Magazine will be distributed from coast to coast and a copy will be sent to every Board of Trade and Chamber of Commerce in America.

The Ohio Magazine will picture Newark in a most attractive way, a half dozen articles by local writers being illustrated with photographic views taken expressly for the magazine.

The Board of Trade has thoroughly investigated the proposition and commends it to the business men and manufacturers of Newark. The committee appointed to co-operate with the publishers trusts that the people of Newark will respond even more generously than did the residents of Marion, Ohio, for the May number of the Magazine.

"MAMMA, BEAR
LOVES BETTY"

SAID LITTLE TOT WHOSE SISTER
 WAS CARRIED TO GABLE
 ROOF.

Mother Enticed the Animal By Getting Piece of Meat From Nearby Slaughter House.

Among the old buildings still standing in Newark that were constructed over three-quarters of a century ago, none is more interesting than the little one-story and half dwelling house located on the east side of North Fourth street, just across Log Pond run. Over sixty years ago this house was occupied by Lawrence Hurlbaugh and family, Mr. Hurlbaugh being an uncle of our fellow townsman, Mr. Griff Rosebrough.

Mr. Hurlbaugh was a butcher by occupation and was the proprietor of a slaughter house, which occupied a position near his dwelling and extended across the Log Pond Run. At that time wild animals of all kinds were very plentiful in Licking county, and Mr. Hurlbaugh kept a cub bear which he had purchased of a hunter, chained in the slaughter house.

One day while Mrs. Hurlbaugh was engaged in doing the family washing out under the willow trees, the bear, which by this time was nearly full grown, broke loose, and entering the house, picked up the baby, which was lying in its cradle, climbed to the roof of a shed with the baby in its arms, and from there to the roof of the house.

Suddenly, the next to the eldest child, who was four or five years old, and who had seen the bear take the child, toddled out into the yard and running up to its mother said: "Ma, Ma, bear loves Betty."

The mother chancing to look upward was horrified to see the bear perched on the gable of the roof, with the baby in its arms. The mother thought for a moment and then hastily ran into the slaughter house where she secured a piece of bloody meat. The bear, attracted by the scent of the blood, cautiously descended from his lofty perch, with the baby still in his arms and finally placed the baby on the ground, after which he proceeded to devour the meat. There was bear meat on the breakfast tables of all the people in that vicinity the next morning.

CRAVING FOR DRINK DESTROYED

The best aid to temperance is something that will strengthen the drunkard's wrecked nervous system and cure his unnatural craving for drink. We believe that any man who really desires to be cured of the liquor habit can cure himself by using Orrine. This remarkable discovery has made so many cures among our customers that we are glad to sell it under an absolute guarantee to refund the money if it does not cure.

It is in two forms: No. 1 that can be given secretly, and No. 2 for those who wish to be cured. It is not only the most reliable treatment known, but it is also the most economical as it costs only \$1 a box and there is no detention from the usual duties, while if cure is not effected, there is no expense whatever. Mail orders filled. The Orrine Co., Washington, D. C., or F. D. Hall, Newark, O. 37

CAR CLEARING HOUSE
OPERATES SATISFACTORILY

Great success has attained the career of the car clearing house, organized at the beginning of the year to relieve the car famine. The clearing house has been ably and successfully managed, and has won for itself the endorsement of the Inter-state Commerce commission. The association now has a membership of thirty-one roads, and ninety roads report their car service figures to it. These represent one-half of the car supplies of the entire country. Small roads have remained out because they think that were they to become members they could not retain the cars of their connections with such impunity as they do at present. The object of the clearing house is to get the largest possible amount of service out of the car supplies available and this is done by seeing that neither shippers nor borrowing roads retain the cars for an undue length of time. Since the clearing house has been in operation the detention of cars has been materially reduced.

BUT ONE GAME IN LEAGUE TUESDAY

SOCKS AND CHAMPS PLAY A FIVE-INNING CONTEST AT NEW CASTLE.

All Other Games Called Off on Account of Rain—Gloomy Prospects for Today.

HOW THEY STAND.

Clubs.	Won.	Lost.	Pct.
Youngstown	17	6	.739
Akron	15	11	.577
Newark	13	11	.542
Sharon	12	12	.500
Marion	12	12	.500
New Castle	12	14	.462
Lancaster	11	15	.423
Mansfield	4	17	.190

TUESDAY'S RESULTS.
Youngstown 1, New Castle 2. (5 innings; rain.)
Rain at all other points.

TODAY'S GAMES.
Lancaster at Newark. (Postponed game.)
Mansfield at Marion.
Sharon at New Castle.
Akron at Youngstown.

TOMORROW'S GAMES.
Lancaster at Newark. (Postponed game.)
Mansfield at Marion.
Sharon at New Castle.
Akron at Youngstown.

Jupiter Pluvius is certainly no friend of the ball clubs in this section of the country. Not a full game was played in the O-P league Tuesday and at New Castle, the Nucks and the Champs could get in but five innings. The Newark game was not even contemplated after that rain at noon Tuesday. True, the flag over the trust building floated until about 2 o'clock but it was because connections could not be made with the man who was to pull it down.
The diamond was entirely too wet for play and more rain fell during the afternoon.
Things look rather gloomy for this afternoon's game but it is possible that the grounds can be gotten into shape for play by 3:15.

NEW CASTLE 2, YOUNGSTOWN 1.
New Castle, June 5.—Rain interfered in the fifth inning with New Castle ahead, rendering the grounds unfit. Steen had the visitors at his mercy. Compton was hit hard in the fielders' hands. The score:
New Castle...2 0 0 0—2 3 1
Youngstown...0 0 0 0—0 1 1
Batteries: Steen and Briggs; Compton and Ostiek; umpire: Latham.

The wreck record of the Baltic Sea is greater than that of any other part of the world. The average is one a day throughout the year.

S.S.S. PURELY VEGETABLE

S. S. S. is recognized everywhere not only as the best of all blood purifiers and the greatest of all tonics, but the one medicine that can be taken with absolute safety by everyone. Young or old, those in robust health, or those whose systems are delicate and run-down, may use it with the same good results, and equally without fear of any unpleasant or injurious after effects. Next in importance to removing the cause of any disease is the condition in which the system is left after a course of medical treatment. Medicines containing mercury, potash or other strong mineral ingredients often do permanent injury by eating out the delicate lining and tissues of the stomach, producing chronic dyspepsia, unfavorably affecting the bowels, and so deranging the system otherwise, that even if the original disease had been removed from the system it is left in such a weakened and deranged condition that the health is permanently impaired. S. S. S. enjoys the distinction of being the only blood medicine on the market that does not contain a mineral ingredient of some kind. It is made entirely of the healing, cleansing extracts and juices of roots, herbs and barks gathered directly from the forests and fields of nature, under our own supervision, and when they reach our laboratory contain all their original valuable tonic and blood purifying ingredients. S. S. S. is absolutely harmless to the system, and while curing disease adds health and strength to every part of the body. S. S. S. cures Rheumatism, Catarrh, Scrofula, Sores and Ulcers, Skin Diseases, Contagious Blood Poison, and all other blood troubles by removing the cause and supplying the circulation with health-giving and strength-producing qualities. THE SWIFT SPECIFIC CO., ATLANTA, GA.

SQUEEZE PLAY WORRIES SCORERS

RULES SAY BATSMAN CAN'T GET HIT UNDER ORDINARY CONDITIONS.

President Morton Gives Decision on Scoring This Style of Play—Batter is at Disadvantage.

Here's a question which has been bothering more than one scorer since the "squeeze play" has been recognized as one of the modern base ball tactics of modern base ball:
With a man on third the batter comes up ordered to bunt the first ball pitched. He pulls off the play successfully, but the infielder who fields the ball pegs to the plate in a vain attempt to cut off the run. Had he chosen instead to get the batter at first, he could have done so with ease, but he didn't, and both men are safe.
What shall the batter be credited with?
Many scorers would give him a hit, still more would give him a sacrifice hit. But neither, according to President Morton's ruling, is right. The batter must be given first base on a fielder's choice, and although he went through his part of the play perfectly, he gets a time at bat which counts against his batting average.
It's an unfortunate condition, due, no doubt, to the fact that the "squeeze play" had not yet become universally recognized as a factor in the game at the time when the rules were last revised. The batter receives his orders, carries them through without a slip, scores the base runner by his bunt—and lowers his batting average thereby.
He cannot be credited with a sacrifice hit under the scoring rule relating to that subject, which says that "a sacrifice hit shall be credited to the batsman who, when no one is out or when but one man is out, advances a runner a base by a bunt hit which results in the batsman being put out before reaching first, or would so result if it were handled without error." The batsman isn't put out, and while he advances the base runner, he does not get a life through any error in handling the ball. Nor can he get a hit, as he would have been an easy out had the ball, fielded cleanly, been thrown to first.

BUFF EHMANN SORE LEFT AKRON TEAM

But Thought Better of His Action and Returned After Four Days' Absence.

"Buff" Ehmman, the Rube Waddell of the O-P league.
Were all of the circumstances surrounding "Buff's" case known, this would undoubtedly be the handle which the fans would hitch to the big fellow, says the Akron Journal.

Last Friday Ehmman quit his job, returned to his home in Canton, and notified the local management that he would play no more base ball. For some time "Buff" had been sulking, and on Friday he determined to leave. He left a note behind acquainting East with his intention, and going home, he put in three days in resting. Monday, having heard nothing from the Akron management, "Buff" thought he would return, and he is adorning the same old seat on the bench.

PAIR OF TROUSERS FOR NEXT HOME RUN

Messrs. Parks & Grafters, tailors, at 33 1-2 West Main street, have offered a pair of finely tailored trousers to the Newark player hitting the first home-run, either at home or abroad.

WORK HORSES WIN MEDALS AND CHEERS.

NEW YORK, June 5.—It took the two thousand faithful animals, from the Woman's Auxiliary of the Society for the Prevention of Cruelty to Animals, under whose direction the parade was held, presented medals and different classes was groomed until it is coat shone like a looking glass.

CHAMPS PLAYING GREAT INSIDE BALL

They are saying in Akron now that the Champions are a great ball team. This is the way they look at Youngstown: A well balanced team with team work down to a marvelous degree of perfection for this stage of the season; a team on which six men get into a play if there is room for six, a bunch that is fighting all the time and a team that doesn't follow a set style of play.

That inside ball is winning is a great deal higher compliment than to have it said that the pitching staff or hitting brings home the big end of the scores. They are saying in Akron, too, that this year's team is better than the Champions of last year.

PLAYERS ARRESTED FOR SUNDAY PLAYING.

East Liverpool, O., June 5.—Every East Liverpool baseball player who took part in the East Liverpool-Sharon game Sunday has been, by Sheriff Wilkin, of Hancock county, W. Va., and later released on \$500 bail each, furnished by C. A. and W. L. Smith, owners of Rock Springs Park. A special train was provided after the game and the players taken to New Cumberland, W. Va., for a preliminary hearing.

SHAKEUP AMONG SMITH'S NOCKS

(Special Telegram.)
New Castle, June 5.—Manager Smith this morning released Pitzer Cannitz and from the present indications there will be a general shakeup of the entire team. Infielder Green will probably get the grand bounce, as he has not been hitting as he should.

It is the general opinion here that the entire team is "laying down" on Manager Billy Smith and the directors have authorized him to clean out the rebels with suspensions if necessary in order to quell the internal disturbance.

JOHN R. TAYLOR STILL HIGH MAN

In the Annual Tournament of the State Trapshooters' Association at Columbus.

Columbus, O., June 5.—The annual tournament of the State Trapshooters' Association was held at Columbus today. John R. Taylor, of Newark, was the high man, scoring 172 out of a possible 187. Other high averages were: W. R. Crosby, 170; R. O. Peikes, 170; J. L. Sauer, 167; L. Wade, 167.

TODAY'S GAME

Wehrle Park, June 5.—In spite of the inclement weather the base ball ground is in good condition and the Molders played the Lanks this afternoon. Link twirled for Newark and Winters received. The battery for Lancaster is Johns and Fox. Sam Haval is still out of the game and Writen will play short.

Lancaster made two runs in the second inning, and at the end of the first half the game stood 2 to 0.

SUNDAY'S CITY LEAGUE GAMES PROMISE DOINGS

A city league game scheduled for Sunday morning promises to be an interesting affair. The King Co., formerly the Rutledge team of the city league, is on the program to play the Meridith team and everything points to a hot contest.

This is the Meridith team's home game and Strand has arranged to play at Idlewild park where the grounds are in better condition and where the facilities for handling the crowd are better.

There has always been trouble at the King Company grounds at Jefferson street on account of the crowds thronging on the diamond and this trouble is avoided at Idlewild park.

PRATT-JEWETT GAME.
The Jewetts will be the home team in Sunday's game with the Jewelers on the Jefferson street grounds. The car builders have been improving with every game and it is probable that they will give the watchmakers a run for their money.

FERRY HAS SIGNED WITH MERIDITH

William J. Ferry, former manager of the Rutledge team of the city league, has relinquished his position at the head of the team and the Rutledge Brothers have withdrawn from the backing of the team. The franchise, which is set formally transferred, will probably go to the King company, and until such transfer is made by the league managers, this club owner, Frank Fox will play on the Rutledge team.

Ferry has signed on with Manager Strand of the Meridith team and will play in the same Sunday game as the King company's new manager.

Ferry is a headstrong man and he is so apt to be found splitting hairs.

Ferry is getting green, which sounds like the mint is about ripe for the picking.

Relatively speaking—the talkative mother-in-law.

W. EAST IS SECOND "MUGGSY" MCGRAW

Walter East is getting to be the "Muggsy" McGraw of the O. and P. Walter, a decent fellow off the field and formerly a kicker only when there was reason, is getting to be a pronounced umpire baiter. His kicking in Friday's game with the Champs was a joke to the Youngstown players. He kicked when there was no reason. Kicking lost the New York Giants the pennant last year, a lot of the folks say, and it may put Akron further down the line than the team would finish if the howling were omitted.

SHARON COMPLAINS OVER SCHEDULE.

Sharon, Pa., June 5.—The management of the Sharon Ohio and Pennsylvania League team has let out Catcher Dan Meehan. He came here last Thursday on his own responsibility and asked for a try-out. He caught the second game against Mansfield and showed up well. Catcher Griffin reported today from Buffalo, and the management concluded not to keep Meehan. He will go to one of the inter-state league teams.

The fans here are kicking over the schedule. During the present month only four games are scheduled for this city, while in September, the fog end of the season, nineteen are booked to be played here. Manager Van Patterson hopes to break even on the games played away from home this month. If he does, he is confident that Sharon will land in the first division. The report sent out to the effect that Robert Kling resigned as manager of the Sharon team because of interference, is denied. He had full charge of the club.

Cotton Drops.

New York, June 5.—A drop of about \$1.25 a bale in the price of cotton, as quoted on the New York Cotton Exchange, followed the announcement of the government crop report showing the estimated condition of the crop to be better than 70 per cent. Weakness of the market before the publication of the government's report had already sent the price down about \$1 a bale so that, at the low points, quotations represented a decline of more than \$2 a bale from closing prices of Monday.

Ordered Back to Work.

San Francisco, June 5.—The 230 linemen who left the service of the Pacific Telephone and Telegraph company were ordered back to work by President Kelly of the district council, who holds that the men, in going out on strike, violated their agreement with the company entered into Dec. 22, 1906.

By the will of the late Emanuel Lehman, the Free School for crippled children on the lower east side of New York City will receive \$175,000.

The river Thames has two mouths, one known as "Thames head," the other sixteen miles away in the Corsswolds, the "Seven Springs."

The fellow who is always on pleasure bent is apt sooner or later to be on pleasure broke.

Man poses, the investigating committee exposes.

Will Not Stain Hair

Ayer's Hair Vigor, now improved formula, does not stain or change the color of the hair, even to the slightest degree. If your hair is blond, gray, or even snow-white, Ayer's Hair Vigor, the new kind, will not make it a shade darker. Ask your doctor if this is not so. We publish the formula. J. C. Ayer & Co., Lowell, Mass.

OLIVE OIL A NEW FAD

English Woman Follows Advice With Pleasing Effects and Starts a Cult.

London, April 20.—"What shall I take for my complexion?" a reigning beauty in British aristocratic society asked of Sir Thomas Barlow, physician to King Edward's household, the current number of a medical paper reports.
"Take olive oil," Sir Thomas answered. "Live on it; live in it; live with it; eat it; drink it; dress your food with it and don't do without it—lubricate your system."
As the result of following this advice the lady achieved her desire—a clear skin. Then she began to give beauty luncheons in which olive oil was very prominent. And these luncheons became popular.
"Olive oil, though incapable of supporting life if taken alone, nevertheless lends itself, the periodical explains, "to a diminished meat diet as it prevents waste of tissue. The warm, rosy complexion of the Italian and Sicilian woman is due to the free use of olive oil as much as to the air and climate of their country."
"From one to two tablespoonfuls spread over the day in different ways is quite sufficient to achieve the results hoped for by the king's physician."
The olive oil recommended by Sir Thomas Barlow is for sale by J. W. COLLINS & SON, DRUGGISTS.

CROKER'S HORSE WON THE DERBY AT EPSOM, ENG.

King Edward VII Saw the American Horse Home First at Odds of 9 to 1.
Epsom, England, June 5.—The English derby, the blue ribbon event of the turf, was won today by Richard Croker's colt, Orby. This is the third time the victory has been won by an American owner, Pierre Lorillard and William C. Whitney having previously turned the trick.
Orby came home two lengths to the good against eight of the finest thoroughbreds in the world. Orby was piloted by the American jockey, Johnny Reiff. Hundreds of Americans made a great "killing" as Orby figured a 9 to 1 shot in betting. King Edward was spectator.
Croker himself is reported to have won \$100,000 on the race.

AURORA HOUSE PAINT.

Aurora Ready Mixed Paint is an honest lead and oil paint, covering more surface and possessing greater preservative qualities than other paint and leaving a firm, glossy surface. Manufactured by The Marietta Paint & Color Co., Marietta, Ohio. Sold by the Newark Paint Co., 31 West Church St., Newark, Ohio. Try our Spartan White Lead.

Missionaries Attacked.

London, June 5.—A special dispatch received here from Hongkong says that Mr. Pollard, a Methodist missionary at Chao-Tung-Pu, has been mercilessly beaten by the Chinese. His lung was pierced by a weapon. The missionaries are flocking into Hongkong from the Swatow and Pakhoi districts.

Glass bathtubs are being made in Germany and are said to have advantages over those of metal and enamel, the principal one being that they are much cheaper.

The British government owns 25,000 camels.

Judging from the loudness of some men's attire, they must think the rest of the world is deaf.

GOVERNORS OF OHIO

JEREMIAH MORROW—1823-1826.

Jeremiah Morrow, who was governor from 1823 to 1826, rose on the rounds of the political ladder from a representative in the territorial legislature to delegate to the first constitutional convention and then successively a member of the state senate and for ten years Ohio's sole representative in the lower house of congress. In 1814 he was commissioner to treat with the Indians west of the Miami river. Then he went to the United States senate. The governorship did not satisfy his political aspirations, and in 1831 he was returned to congress. While in congress Mr. Morrow drafted most of the laws providing for the survey and disposal of public lands. He died March 22, 1852.

DEVOTED YALE MEN.

Work of Graduates to Advance Their Alma Mater's Interests.

MANY LINES OF ACTIVITIES.

Much Time, Money and Attention Given—What Secretary Taft Has Often Done—Yale's Grand Work in China—Labors of Class Secretaries.

That the secretary of war should drop the reins at Washington and travel a thousand miles to spend three of his precious days and nights at an alumni gathering was not considered unusual by the members of Yale's Western Alumni association, whose meeting at Cincinnati was engineered by William H. Taft, '78, a short time ago, says the New York Tribune. The time, money and attention which this occasion called for do not represent one-twentieth part of that which the secretary of war devotes each year to the interests of his alma mater. Every meeting of the Yale corporation this year, except the one when he was absent from the country, has taken the busy cabinet official from Washington to New Haven, and he has dropped affairs of state on a dozen occasions to travel to New York city for a gathering of the Yale club or to other towns where an important meeting of alumni was being held.

Mr. Taft is wont to call this large proportionate outlay of his time and energy well worth while and to scout the remark that it is at all unusual. To prove his first assertion he always tells a story. To prove his second he cites the large part which Yale plays in the life of its graduates generally. The story is told in the Philippines years ago, at a moment when the big reorganizer says he came as near to being discouraged as he ever could be. A cable message from his class, in remembrance of New Haven, was laid on the stack of papers that littered his desk. "Good boy, Bill; we're with you," was the tenor of the message, and Mr. Taft says its effect was worth all the time that any man can give in a lifetime to his alumni interests.

What the secretary of war says of the part which Yale plays in the life of its graduates generally is largely borne out by recent statements by Anson Phelps Stokes, Jr., secretary of the university. While it has been, of course, impossible to determine exactly just what amount of energy and effort each one of Yale's 13,000 alumni devotes to Yale's interests, it is possible roughly to classify a large number of graduate types, the unusually high percentage of whose activities along these lines raises the average far above the minimum man, whose active interest is confined to a few graduate dinners a year, periodical response to appeals for alumni funds and a trip to a class reunion at New Haven every three or five years.

Class secretaries rank high on the list of the graduates who give a goodly part of their time and activities to the interests of Yale and its alumni. Many a class secretary has been found who is devoted every hour of his leisure to the burden of constant compilation and correction of the history of some 200 men, scattered to the ends of the earth, involve. Every one of these men is called upon at regular intervals to compile and publish a book containing the history and status of each man in the class up to date. Each is always subject to a call by any member of his class for the latest and most detailed information regarding another member or group of members. It is not unusual for a class secretary to receive a demand for a complete list of the class, with latest addresses and a "married or single" annotation, for purposes of sending out wedding announcements.

In two words the secretary is not unaided. A large proportion of his class-mates willingly assume a share of the burden of writing to their particular intimates and thus keeping the secretary accurately informed. Thus, weeks of time and attention are devoted by many Yale alumni to class record work. The class agents of the alumni fund have an almost equal amount of constant and pressing labors to take up their leisure time. These men see to it that each member of the class is kept in touch with the work of raising funds by the general body of the alumni for the support of the university and that each is solicited in a timely and tactful way to make his individual contribution. To this work many of the class agents devote weeks of the time of their office clerical force and much more of their own. As officers and committeemen of the organization of the alumni fund a score of men whose time is unusually valuable serve regularly and willingly. Last year these voluntary agents collected over \$100,000 from about 2,500 graduates of the university. In the hundred or more alumni associations throughout the land men of this type are also serving in a similar capacity.

As a sample of graduate activity along specialized lines the Yale mission collection in China is often cited. In the building of a new Yale in the heart of China an incorporated society under a council of forty prominent Yale alumni has been formed with a working membership that includes scores of the alumni and has as officers the leading men of the university and the graduate body. The conduct and financing of a project of such magnitude are calling each year for a large part of the attention of many of the most prominent Yale men. For each commencement reunion scores of graduates devote weeks of time and effort to complete and carry out similar activities at the university.

Court Briefs.
The county clerk has received from the supreme court a mandate in the case of B. Walter Evans against L. B. Tussing, that the judgment of the circuit court is affirmed.

The will of Mary Elizabeth Patten, deceased, of Newark, has been admitted to probate.

H. B. Oldaker, as guardian of Leslie Holton, and the other minor children of David Holton, deceased, has filed his inventory.

Additional evidence as taken in the probate court in the alimony case of Leora J. Hedrick against L. W. Hedrick, and continuing for further testimony until 1 o'clock Thursday.

Real Estate Transfers.
Amos Alwood, administrator of the estate of Effie E. White, deceased, to Eva E. White, lot 56 in Hebron; \$700.

Samuel R. Harris and wife to Geo. Grandstaff, parts of lots 12 and 14 in Hartford township; \$1400.

Charles C. Bostwick to Reason A. Feller, real estate in Pataskala; \$1200.

The Taylor Land and Improvement company to Joseph S. Hartough, lot 117 in Cherry Vale Park addition to Newark; \$157.

James C. Linn and Mary E. Linn to Oren J. Linn and Ora Belle Linn, real estate in Newark; \$1700.

Chester and Ella Priest to Alfred A. Taylor, 2773 in Newark; \$1200.

Reject Stolypin's Gifts.

St. Petersburg, June 3.—The lower house of parliament rejected two more of Premier Stolypin's temporary laws, one providing for increased punishment and trial exclusively before military and naval courts-martial of persons charged with conducting a revolutionary propaganda among the troops or sailors, and the other authorizing the police to fetter political prisoners.

Shadowed by Detectives.
St. Petersburg, June 3.—M. Dzhaparidze, Dzhugheli and Kandelaki, Social Democratic members of parliament, who participated in the London congress, reappeared in the lower house. They have constantly been shadowed by detectives since landing at Peking and were shadowed on arrival in St. Petersburg despite their strong protests, the officers informing them that they acted under the personal order of the prefect of police.

It isn't until a girl gives up all hope of getting a man that she becomes intellectual.

"Suffered day and night the torment of itching and burning helped me. I used Doan's Ointment. It cured me permanently."—Ira. John R. Garrett, Mayor, Girard, Ala.

ORDINANCE NO. 1800.

To Issue Bonds to Borrow Money in Anticipation of the Collection of Special Assessments to Pay for the Improvement of Europa Vista Street from a Point 22 3/4 Feet South of the South Line of Samuel M. Hunter's Property on Said Street; Thence North on Said Street 135 Feet to the North Line of the Property Owned by Carroll and Daugherty, by Constructing a Trench Sewer for Sanitary and Drainage Purposes.

Be it ordained by the Council of the City of Newark, State of Ohio, two-thirds of all the members elected thereto, concurring:

That it is deemed necessary by the Council of the City of Newark, State of Ohio, to issue and sell bonds for the purpose of paying the cost and expenses of improving Europa Vista street from a point 22 3/4 feet south of the south line of Samuel M. Hunter's property on said street thence north on said street 135 feet to the north line of the property owned by Carroll and Daugherty, by constructing a trench sewer for sanitary and drainage purposes, and in anticipation of the collection of the special assessments to be levied by virtue of sections 2702, 2706, 2707 of the Revised Statutes of the State of Ohio, come into effect March 25, 1901 and sections 65 of an act of the General Assembly of the State of Ohio, entitled "An act to provide for the organization of cities and incorporated villages, and to restrict their power of taxation, assessment, borrowing money, contracting debts and incurring liabilities, so as to prevent abuse of such powers, as required by the Constitution of Ohio, and to repeal all sections of the Revised Statutes inconsistent herewith," passed Oct. 22, 1902, there shall be issued four coupon bonds of the denomination of \$200 each, excepting No. 4, which shall be of the denomination of \$500, numbered from one to four in the aggregate amount of \$100, bearing date July 1st, 1907, and payable at the office of the City Auditor, and the City of Newark, State of Ohio.

Sec. 2. Said bonds shall mature and become due and payable as follows: No. 1 shall mature and become due July 1st, 1910; \$200.00.

No. 2 shall mature and become due July 1st, 1911; \$200.00.

No. 3 shall mature and become due July 1st, 1912; \$200.00.

No. 4 shall mature and become due July 1st, 1913; \$500.00.

Sec. 3. Said bonds shall draw interest at the rate of 5 per cent per annum, payable semi-annually upon the first days of July and January each year for which purpose proper interest coupons shall be annexed to and made part of said bonds. The faith and credit of the City of Newark, State of Ohio, and the City of Newark, State of Ohio, shall be pledged for the prompt payment of the interest and principal of said bonds.

Sec. 4. Said bonds shall express upon their face the purpose for which they are issued, and shall cite the Statutes and Ordinances authorizing their issue.

Sec. 5. Said bonds shall at first be offered at par and accrued interest to the Trustees of the Sinking Fund in their official capacity, and if the Sinking Fund Trustees refuse to take any or all of said bonds at par or accrued interest, then said bonds shall be offered at public sale and sold in the manner provided by law, but not for less than their par value and accrued interest.

Sec. 6. The proceeds from the sale of said bonds except premium and accrued interest shall be deposited in the City Treasury to the credit of the Europa Vista Street improvement, and shall be used for the purpose of paying the cost and expense of said improvement, and for no other purpose, and the premium and accrued interest received from the sale of said bonds shall be transferred to the Trustees of the Sinking Fund to be applied by them in the manner provided by law.

Sec. 7. This ordinance shall be in force and take effect from and after the earliest period allowed by law.

ORDINANCE NO. 1799.

To Issue Bonds to Borrow Money in Anticipation of the Collection of Special Assessments to Pay for the Improvement of Europa Vista Street from a Point 22 3/4 Feet South of the South Line of Samuel M. Hunter's Property on Said Street; Thence North on Said Street 135 Feet to the North Line of the Property Owned by Carroll and Daugherty, by Constructing a Trench Sewer for Sanitary and Drainage Purposes.

Be it ordained by the Council of the City of Newark, State of Ohio, two-thirds of all the members elected thereto, concurring:

That it is deemed necessary by the Council of the City of Newark, State of Ohio, to issue and sell bonds for the purpose of paying the cost and expenses of improving Europa Vista street from a point 22 3/4 feet south of the south line of Samuel M. Hunter's property on said street thence north on said street 135 feet to the north line of the property owned by Carroll and Daugherty, by constructing a trench sewer for sanitary and drainage purposes, and in anticipation of the collection of the special assessments to be levied by virtue of sections 2702, 2706, 2707 of the Revised Statutes of the State of Ohio, come into effect March 25, 1901 and sections 65 of an act of the General Assembly of the State of Ohio, entitled "An act to provide for the organization of cities and incorporated villages, and to restrict their power of taxation, assessment, borrowing money, contracting debts and incurring liabilities, so as to prevent abuse of such powers, as required by the Constitution of Ohio, and to repeal all sections of the Revised Statutes inconsistent herewith," passed Oct. 22, 1902, there shall be issued four coupon bonds of the denomination of \$200 each, excepting No. 4, which shall be of the denomination of \$500, numbered from one to four in the aggregate amount of \$100, bearing date July 1st, 1907, and payable at the office of the City Auditor, and the City of Newark, State of Ohio.

Sec. 2. Said bonds shall mature and become due and payable as follows: No. 1 shall mature and become due July 1st, 1910; \$200.00.

No. 2 shall mature and become due July 1st, 1911; \$200.00.

No. 3 shall mature and become due July 1st, 1912; \$200.00.

No. 4 shall mature and become due July 1st, 1913; \$500.00.

Sec. 3. Said bonds shall draw interest at the rate of 5 per cent per annum, payable semi-annually upon the first days of July and January each year for which purpose proper interest coupons shall be annexed to and made part of said bonds. The faith and credit of the City of Newark, State of Ohio, and the City of Newark, State of Ohio, shall be pledged for the prompt payment of the interest and principal of said bonds.

Sec. 4. Said bonds shall express upon their face the purpose for which they are issued, and shall cite the Statutes and Ordinances authorizing their issue.

Sec. 5. Said bonds shall at first be offered at par and accrued interest to the Trustees of the Sinking Fund in their official capacity, and if the Sinking Fund Trustees refuse to take any or all of said bonds at par or accrued interest, then said bonds shall be offered at public sale and sold in the manner provided by law, but not for less than their par value and accrued interest.

Sec. 6. The proceeds from the sale of said bonds except premium and accrued interest shall be deposited in the City Treasury to the credit of the Europa Vista Street improvement, and shall be used for the purpose of paying the cost and expense of said improvement, and for no other purpose, and the premium and accrued interest received from the sale of said bonds shall be transferred to the Trustees of the Sinking Fund to be applied by them in the manner provided by law.

for less than their par value and accrued interest.

is centrally located, well drained, beautifully situated, is ample in area and has the advantage of a magnificent grove.

Dr. McMillen of Cincinnati, Dr. Bart of Cleveland, and Hon. J. A. McDowell of Millersburg, are members of the commission, but Governor Harris and Auditor Guilbert alone visited Newark. Before visiting Newark the governor and auditor inspected the site offered by Zanesville.

MILK MAID MARRIED A VANDERBILT

New York, June 3.—I noted on the other side of the Atlantic, the milk specialist of Brooklyn, who, some time last Saturday, in the ward of Ward Vanderbilt, a wealthy lumber merchant of this city. You doubtless know him as a widower. His wife, who died three years ago, was a Vanderbilt of the new city. The late Mrs. Vanderbilt was a friend of Mrs. Pepper's and had the greatest influence in the city. Her death, which occurred, and his wife, in the summer and him to become interested. When his wife died, Mrs. Pepper became his partner in the Aurora Grant establishment. Vanderbilt was one of the pillars of the church. He gave him considerable consolation to receive messages from the spirit world. He had many reassuring talks with his wife through the medium of Mrs. Pepper, so it is said. Mrs. Pepper-Vanderbilt has been before the public for many years. She

was originally a milkmaid in Providence, and, while not engaged in the business, studied spiritism. When she graduated from the farm she went to Brooklyn and started as a spirit medium. Her following has been large and she is said to have accumulated quite a fortune. Mrs. Pepper maintained that she had her talks with spirits through the aid of an Indian shade which she called "Little Bright Eyes."

CATHOLIC PRIESTS MANAGE THEATRE

Chicago, June 3.—Catholic has a theatre, the management of which is entirely in the hands of Catholic priests. At a total expenditure of \$500,000 the College theatre was opened. The theatre is one of the handsomest in the city. The first attraction of the new playhouse was the late Frederick Grant Gleason's opera in English "Otto Visconti." This is the first time this work has been presented on any stage. Dabney Carr, formerly of the English Grand Opera company of New York, had the leading part.

NO JURISDICTION OVER POOLROOM ON LAKE MICHIGAN

Chicago, June 3.—A jury in the criminal court decided that the police department of Chicago has no jurisdiction over the running of the City of Traverse as a poolroom on Lake Michigan, where wagering on horse races is carried on. A week ago the City of Traverse was put back in commission after lying in dock for several weeks and when she returned to port, sixty-three of those who had gone out on the boat were arrested on a charge of gambling. One of the men arrested was put on trial and the jury returned a verdict declaring the defendant had not violated any of the city ordinances.

PRESIDENT MURRAY DISREGARDS ORDER

And Issues Proclamation Calling For An Election To Ratify Oklahoma Constitution.

South McAlester, I. T., June 3.—Disregarding the restraining order of District Judge Hancock, William H. Murray, president of the constitutional convention, issued a proclamation calling an election Aug. 6, when the constitution framed by the committee for the proposed state of Oklahoma will be ratified or rejected. Murray stated that he did not consult the legal advisory committee in making the proclamation for the election, knowing this would embarrass them as attorneys before the court.

ASSASSIN

Tells Motive For Killing the Ex-President of Guatemala on May 7.

Mexico City, June 3.—Florencio Morales, 18, the man who killed General Barillas, ex-president of the republic of Guatemala, in one of the streets of this city on May 7, last, told in court the motive of his crime. He placed the blame for his act on the shoulders of his cousin, Bernardo Mora, the man who is named as his accomplice. Morales does not deny that the murder was of a deliberate character, but insists that he committed the crime in order to save his own life. He insists that he was but the tool of his cousin.

The floating population of the world is 1,200,000. This means the people who follow the sea.

In Switzerland all boys in school begin to receive a military training at the age of eight.

STREET CAR CONDUCTOR OFF FOR EUROPE TO ENJOY HIS SIX YEARS SAVINGS.

CHARLES KELLY

New York, June 3.—To see Europe and spend \$3,000 that he and his wife have saved during the last six years, Charles Kelly, a Kansas City street car conductor, left yesterday on board the Moltke, of the Hamburg-American line. Mrs. Kelly was with him, and she beamed with conscious pride on her thrifty husband, who had eschewed all expensive habits, and worked overtime and bought at the bargain counters, all to obtain sufficient means to make what to them will be the tip of their lives.

First the Kellys are to go to Italy. "Then to the balighis in Spain," said Kelly. "I've read of them, and now we're going to see them. I want to go through the St. Gothard tunnel."

GRANVILLE NEWS

Granville, O., June 3.—The members of Altamaha Lodge, Knights of Pythias, of this place, will hold memorial services for the dead of the order on Sunday afternoon. The exercises will be held in Maple Grove cemetery, providing the weather permits, and the address will be delivered by the Rev. David Dempster, pastor of the Presbyterian church. The members of the lodge and visiting members of the order will meet at the lodge room at 2 o'clock, and will march from there to Maple Grove cemetery, where the graves will be decorated. Following will be the program: Music, Prayer by Dr. Dempster. Vocal solo by Mr. Ellis P. Legler. Address by Dr. Dempster. Music. The members of the lodge who are buried in Maple Grove cemetery are: George Munson, George Parsons, Dr. Sedgwick, Sr., Henry Hill, and Charles Weston. One other brother, Ben Farmer, is buried in the cemetery at Fredonia. It is expected that a large number of the Newark Knights will be present and assist in the ceremonies. They will be in time to participate by taking the 2 o'clock car.

PRES. ROOSEVELT SENDS PHOTOGRAPHS TO THREE FARMERS

Akron, O., June 3.—Three farmers who were honored by calls from President Roosevelt Wednesday, received autographed photographs of the President direct from the white house.

They were sent to Wallace Wuchter, at whose home the President stopped last, and he was directed to present the others to the "two Mr. Thomases at whose farms I stopped," as the President says in his letter. "One of them gave me a glass of milk," and the other had four fine sons."

Accidents will happen, but the best-remembered families keep Dr. Thomas' Eucalyptic Oil for such emergencies. It subdues the pain and heals the hurts.

The professional criminals of London outnumber the policemen in the proportion of two to three.
